### 👤 SUMMARY

Software Engineering undergraduate at MIU with hands-on experience in full-stack development, system programming, and database design through academic projects. Interested in building scalable, user-focused systems and expanding knowledge in DevOps and cloud technologies.

### 📁 TECHNICAL PROJECTS

**Software Engineer Student, Misr International University** 2023-09-26 - Present

Completed multiple academic projects across Software Engineering, Web Development, Human-Computer Interaction, and Computer Networks. Developed full-stack web applications, system-level programs, and database-driven systems using Java, Python, PHP, Node.js, MySQL, and MongoDB. Designed user-centered interfaces using Figma and applied software engineering principles as part of university coursework, Git version control, and Linux-based development environments.

Key projects include:

- **Campueats** – Campus food delivery web application (Node.js, MongoDB, HTML, CSS, JavaScript)
- **Blink to Click** – Accessibility-focused web application designed for users with disabilities (Python, HCI principles, Figma prototypes)
- **TripLink** – Flight and hotel booking platform (PHP/MySQL, HTML, CSS, JavaScript)
- University network server deployment project (Computer Networks)
- portfolio website

### 🎓 EDUCATION

**Bachelor's Degree Software Engineering** In Progress

Misr International University (MIU), Cairo, Egypt Expected Graduation: 2027

### ★ SKILLS

JavaScript

PHP

CSS3

MySQL

Figma

Power BI

C++

Java

Node.js

MongoDB

Linux

UI/UX Design

Python

HTML5

React

Git

Docker
