EDUCATION

Misr International University (MIU)

Sept. 2023 – July 2027 (Expected)

Bachelor of Science in Software Engineering

Cairo, Egypt

- **Relevant Coursework:** Data Structures, Algorithms, Database Systems, Web Development, OOP, Software Engineering
- **Areas of Focus:** Cloud Architecture, Secure Backend Systems, Scalable Full-Stack Applications

TECHNICAL SKILLS

Languages:	Java, C++, Python, JavaScript (ES6+), PHP, SQL
Frontend:	HTML, CSS, React.js, Tailwind CSS, Framer Motion, Thymeleaf
Backend:	Node.js, Spring Boot, Spring Security
Databases:	MySQL, MongoDB
Cloud & DevOps:	Google Cloud Platform (GCP), Docker, Git/GitHub, Linux CLI, Apache Server, IAM, Kubernetes, CI/CD(Jenkins)
Certifications:	IBM AI Fundamentals (IBM), Google Cloud Computing Foundations (Google)

EXPERIENCE

Software Developer (Project-Based)

2023 – Present

Independent Software Developer

Cairo, Egypt

- Developed and maintained production-quality code for over five full-stack applications
- Architected scalable backend systems and deployed applications on Google Cloud Platform (GCP)
- Collaborated in system design and requirements analysis for complex university-level software projects
- Implemented RESTful APIs and optimized database queries to enhance performance and scalability

KEY PROJECTS

BiteBite Online

React.js, Tailwind CSS

- Built a responsive food delivery web application with optimized UI/UX design
- Implemented dynamic cart and filtering system, improving user interaction efficiency

TripLink Management System

PHP, MySQL, JavaScript

- Designed conflict-resolution logic to prevent booking overlaps and ensure data consistency
